GRAND FINAL
HIGH SCHOOL STUDENT CATEGORY

[CROISSANT]

VIETNAM NATIONAL UNIVERSITY HO CHI MINH CITY
HO CHI MINH CITY UNIVERSITY OF TECHNOLOGY

1. PROBLEM / SOLUTION

Segment	Key Challenges	CHŌZ Solution
Teens (13–18)	Snack-heavy, skip meals, fast lifestyle *60–79% of high school students consume fatty, sugary snacks regularly (Tap chi y hoc Viet Nam, 2022) → increased risk of being overweight or malnourished*	User-friendly app, healthy habits gamified via fun fact cards and quick plans 
Undergraduates (19–24)	Poor diet quality, limited cooking skills, irregular routine *About 31% are underweight, while a growing number are at risk of chronic conditions due to poor habits of eating (National Institute of Mental Health, 2015)*	Personalized meal suggestions & journal for habit tracking 
Homemakers & caregivers	Need reliable, balanced meal ideas *More than half of caregivers did not have the proper knowledge about the timing of complementary feeding (Tap chi dinh duong thuc pham, 2023)*	Nutritious menus with culturally relevant recipes and snack alternatives 

2. INNOVATION

KEY FEATURES

Calorie Counter

A counter which can manually or automatically track user's calories based on the food they've eaten that day

Personalized meal suggestion (PREMIUM)

Select nutritional goals → searches the database for matching recipes and provides quick health benefits. *(can refresh the menu for new options if needed)*

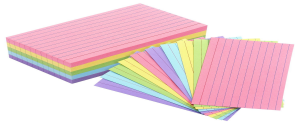

Nutritional Journal

Each meal is linked to a journal → reflect on experiences, preferences, and feelings
⇒ *This feedback helps personalize future suggestions and promotes mindful eating.*

Recipe Catalogue

- Save previously used recipes in a personal catalogue; can bookmark favorites for future use **(premium)**
- Each recipe includes ingredients, preparation steps, and key nutritional benefits.

Daily Fun Fact Cards

Receive bite-sized nutrition facts, smart food tips, and health hacks to build daily healthy habits.

CORE LOGIC

Smart Matching Engine

Connects user input with suitable meal suggestions.

Modular & Scalable

Easy to add new dietary tags or seasonal recipes.

User-friendly UI/UX

Web design, visually appealing meal cards, soft green color palette, intuitive navigation, and a quick onboarding process.

UNIQUENESS

Integrating real-time recipe finding, personalization, and emotional journaling into one platform
⇒ Creates a holistic, evolving, and enjoyable eating experience tailored to each user's lifestyle.

3. MARKET FEASIBILITY

KEY FINANCIALS

Initial Investment:

10,500,000 VND

→ Domain, hosting, basic marketing, expert consultation, and launch setup.

Monthly Operating Cost:

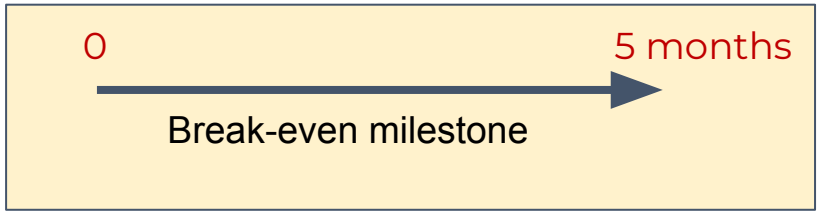

~1,000,000 VND

→ Maintenance, customer support, micro-marketing, and buffer.

Monthly Revenue Projection

- ~3.25M VND/month
- → Net profit: ~2.25M VND/month

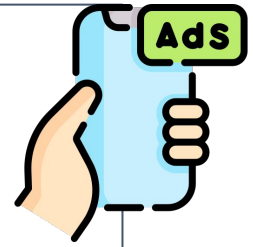

REVENUE MODEL

1. **Freemium + Premium Plan**

- Free: Basic features
- Premium: 25,000 VND/month
  → Estimated 50 paid users (from 1,000 users) = ~1,250,000 VND/month

2. In-app Ads

- Average 2,000 VND per user
  → 1,000 users = ~2,000,000 VND/month

3. MARKET FEASIBILITY

TARGET MARKET

UNDERSTANDING OF MARKET LANDSCAPE

🔻 ***Nutritional Vulnerabilities***

*<10% of Australian young adults meet national dietary guidelines *(2024 study: "Divergence and convergence")*

Common issues:

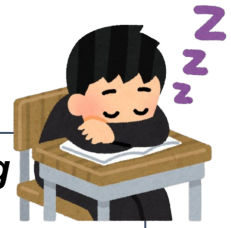

- Meal skipping
- Low vegetable intake
- High processed food consumption

Middle-aged adults & caregivers face:

- Time constraints, stress, and competing priorities
- Reliance on convenience-based, nutrient-poor diets

📱 **Digital Readiness & Demand**

- Digitally engaged & health-aware
- Value preventive care & personalized meal support

📲 ***Youth & Adolescent Eating Behavior (eHealth Study)***

- <10% meet fruit/vegetable intake guidelines
- 65% frequently consume sugary/processed snacks
- ~70% report irregular meals (e.g., skipping breakfast, replacing meals)
- ~60% cite emotional stress & peer influence as key drivers of poor eating
- 80% are interested in using mobile apps for:

+ Diet tracking
+ Tailored nutrition advice

KEY POINTS

+ Persistent gap between **KNOWLEDGE & BEHAVIOR**
+ High readiness for **TECH-ABLE & PERSONALIZED DIETARY TOOLS**

Ideal solution for:

Students

+ *Time-constrained*
+ *Snack-reliant*

Young adults in college

+ *Irregular routines*
+ *Nutrition-unaware*

Homemakers/ caregivers

+ *Health-influencers*
+ *Guidance-seeking*

Emphasis on:

Convenience

Emotional relevance

Sustainable behavior change

Community health impact

3. MARKET FEASIBILITY

GO-TO-MARKET PLAN

Initial Channels of Approach

- **Schools:**
  - Nutrition seminars (with Biology/Civic teachers)
  - Present in flag ceremonies or homeroom
  - Join extracurricular activities, health mini-games
  - Place standees, QR codes in libraries, bulletin boards
- **Student Clubs:** Workshops + app demo + collect feedback
- **Social Media:** Short, engaging content (TikTok/IG/Facebook)
- **Friends/Network:** Word-of-mouth from students & teachers

Pilot Test Plan

- **Duration:** 1-3 months
- **Target:** 100-300 students from 3-5 schools
- **Method:**
  - MVP testing
  - Weekly mini-surveys
  - 1:1 / group feedback (online or in-person)
- **Goals:**
  - Measure usage
  - Test key features (meal suggestions, tracking)
  - Improve before scaling

Strategy to Attract & Retain Users

- **Perks:**
  - 1-month Premium free
  - “Early Supporter” badge
  - Access to giveaways
- **Daily use design:**
  - Small daily tasks
  - Personalized goals + reminders
- **Community**
  - Social media
  - Fun eating challenges with rewards

3. MARKET FEASIBILITY

HOW TO CONVINCE OTHERS TO SUPPORT THE PROJECT?

📌 **For Judges:**
- **Problem is real:** 60% students skip/under-eat breakfast
- **Clear plan:** Low-cost, 1–3 month pilot
- **Confident:** “Not theory, but small daily actions.”

📌 **For Sponsors/ Schools:**
- **Aligned with education:** Builds healthy habits
- **Win-win offer:** Display sponsor logo in app/events
- **Serious execution:** Monthly progress reports

📌 **For Students:**
- **Friendly & fun:** Easy, short daily tasks
- **Motivating rewards:** Badges, challenges, giveaways
- **Make them feel important:** “Your feedback shapes the app!”

4. BUSINESS MODEL

KEY PARTNERS

Health education programs/student projects

Nutrition experts/dietitians

Peers and users

Marketing partners/ health influencers

KEY ACTIVITIES

- Marketing
- Generate personalized meals
- Mix and match user data with meal suggestions
- Offering premium subscriptions as a form of payment

KEY RESOURCES

Developers

Users

VALUE PREPOSITION

- Personalized meal suggestions based on user's health concerns
- Easy-to-understand health benefits for each meal
- Simple, friendly, and relevant interface
- Daily fun nutrition facts to boost awareness
- Optional food j l for self-reflectio

CUSTOMER SEGMENTS

- Students
- Undergraduates
- Homemakers

CHANNELS

Partnered schools

Social Media

Booths & Standees at events

CUSTOMER RELATIONSHIPS

Personalized Support

Friendly Self - Service

Daily Engagement

User Feedback Loop

COST STRUCTURE

- App development & maintenance
- Cloud hosting & data storage
- Marketing & user acquisition
- Nutrition expert consultation
- Customer support services

REVENUE STREAM

- Freemium model (subscriptions for premium features)
- In-app purchases (specialized meal plans)
- Brand partnerships & affiliate promotions
- Optional health-focused advertising

5. TEAM & ADVISORS

Team members:

- **Thu Uyên** – *Leader & Pitching*
- **Minh Tú** – *Lead Developer & User Research*
- **Mai Anh** – *Database & Web Developer*
- **Khánh Đan** – *UX/UI Designer*
- **Uyên Khanh** – *Nutrition & Data Research*
- **Bảo Vi** – *Finance & Monetization*

Mentors (LSTS Faculty):

- **Mr. Vũ Khang** – *Tech Mentor*: Supports coding process, system logic, and team progress tracking.

- **Ms. Trần Võ Tường Vy** – *Science Mentor*: Reviews nutritional content and database accuracy.
